

LiV Park

WESTERN AUSTRALIA

The Global Centre for Energy Metals

LiV Park is situated within the Kwinana Industrial Area, south of Perth, Western Australia.

LiV Park aims to be internationally disruptive in the energy transformation business by supporting the growth of new and existing companies in the sector.

LiV Park offers a professional incubator environment for start-up companies focusing on power generation, storage and transport sectors.

Created by industry for industry, LiV Park is a not-for-profit targeting value adding to raw materials, generating quality sustainable local jobs and driving exports.

AUSTRALIAN VISION

- Greater value capture from resources
- Rare earths for future technologies
- Higher renewable energy penetration
- Access to international expertise
- Increased economic development
- Energy transformation
- Greater exports
- Generating future jobs
- Access to international capital

VISION ALIGNMENT OF INNOVATION CENTRE TO STATE/COUNTRY

S1 Material processing

S2 Advanced manufacturing

S3 Automation and robotics

S4 Battery cell production

S5 Power generation, storage -
Energy usage and applications

Why LiV Park?

- Major global source of commercial volumes of critical raw materials
- Strong Intellectual property protection
- Alternative supply chains
- Pro mining and refining
- Western legal system
- Reliable supplier
- High quality production
- Technologically advanced
- Well trained workforce
- Low energy costs
- Technologically advanced
- Ethical and sustainable supply chains
- Access to support industries
- Stable sovereign governance environment

What LiV Park Requires:

- International expertise
- Capital
- Access to large markets at competitive prices
- Local support through an industrial park structure

Key Inputs:

- Global platform for collaboration
- Access to industrial symbiosis exchanges
- Facilitated world-class, manufacturing cluster – concierge service
- Digital environment
- International capital and expertise
- Access to resources
- Access to skilled workforce

About LiV Park

Developing within the major strategic Kwinana Industrial Area LiV Park incorporates:

- A developing incubator and innovation hub
- Concierge services, facilitating access to infrastructure and integrating with local manufacturing companies
- Companies benefit from existing infrastructure, processes and logistics of Australia's leading industrial area
- Diverse industries in one location including defence, resources, oil & gas, utilities, construction and chemicals
- Access to an international deep-water port
- Intellectual property protection and Western legal system
- Developing a 'Plug and play' manufacturing environment

INDUSTRIAL DEVELOPMENT AREA

World class industrial zone with international companies supplying all required raw materials, testing, reagents and necessary high-quality requirements

All technology and battery materials in one location

EXISTING COMPANIES

- Air Liquide WA Pty Ltd
- AMC Management (WA) Pty Ltd
- Avertas Energy
- ASC Pty Ltd (WA)
- BHP
- BMT Mercury Technology
- BOC Limited
- BP
- Austal Limited
- BAE Systems
- Covalent Lithium
- Coogee Chemicals
- Barrett Communications
- Defence West
- EcoLab Pty Ltd
- Energy Power Systems Australia
- Future Engineering
- Helicopter logistics
- Kwinana Cogeneration Plant (Engie)
- Kwinana Wind Company
- Maritime Defence Solutions
- Naval Ship Management Australia
- NewGen Power Pty Ltd
- Precision Technic Defence P/L
- Strategic Systems Support
- Raytheon
- Tianqi Lithium
- Western Energy
